

## Tronox Titanium Dioxide

September 18, 2017

### Formaldehyde

Tronox titanium dioxide is a synthetic or manufactured product made by purifying and concentrating a naturally occurring titanium dioxide bearing ore. Tronox titanium dioxide is a white pigment offered in dry powder and liquid slurry form.

Tronox titanium dioxide pigment products, to our current knowledge, do not intentionally contain any formaldehyde.

While Tronox does not specifically test for this substance, based on the best knowledge of our manufacturing process, we cannot conceive of any potential route in which this substance might be present in the finished Tronox titanium dioxide pigment products.

Please contact Tronox product stewardship manager with questions regarding this statement, [ChemProdSteward@tronox.com](mailto:ChemProdSteward@tronox.com)

Tronox titanium dioxide may not be directly added to food, pharmaceuticals, or cosmetics. Tronox titanium dioxide may not be used for implantable medical devices used for life-sustaining or life-supporting applications in humans.

The information set forth herein is furnished free of charge and based on technical data that Tronox believes to be reliable, to the best of knowledge. Nothing herein is to be taken as license to operate under or a recommendation to infringe any patents. This information and our technical advice - whether verbal, in writing or by way of trials - are given to the best of our knowledge but without warranty, and this also applies where proprietary rights of third parties are involved. Our advice does not release you from the obligation to check its validity and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control and, therefore, entirely your own responsibility. Our products are sold in accordance with our General Conditions of Sale and Delivery.
