

Tronox Titanium Dioxide

September 22, 2017

Product Variance

Tronox is a leading supplier of titanium dioxide pigment. As a supplier to the pigment markets Tronox takes pride in supplying safe, high-quality product to its customers.

In the production of Tronox titanium dioxide, our products undergo rigorous in- process and finished pigment testing. Our comprehensive industry-standard process control systems of parameters, routine analytical checks, and state of the art Quality Management ensure consistent product performance which meets our customer's expectations.

It must be recognized that some lot-to-lot variability is inevitable within established product specifications, although conformance to these specifications is achieved, the pigments cannot be "identical" as neither are sequential lots in any given manufacturing campaign. This is true of all chemical manufacturing processes.

Our worldwide manufacturing facilities also conform to ISO 9001:2008 standards, proving our commitment to deliver consistent quality to all our valued customers.

Please contact Tronox product stewardship manager with questions regarding this statement, ChemProdSteward@tronox.com

Tronox titanium dioxide may not be directly added to food, pharmaceuticals, or cosmetics. Tronox titanium dioxide may not be used for implantable medical devices used for life-sustaining or life-supporting applications in humans.
