

JIANGXI TIKON TITANIUM PRODUCTS CO., LTD (TIKON) is Tronox's sulfate rutile titanium dioxide factory, formerly owned by Cristal, located in Fuzhou, Jiangxi Province, China. As a leading white pigment manufacturer, Tronox operates a technically advanced facility which produces high quality rutile pigment for use in the coatings, paper and plastics industries.

- A leading white pigment manufacturer and technology-oriented player
- Tronox is one of the ten largest TiO_2 producers in China
- One of China's newest rutile asset bases with world-class, low-cost sulfate design
- Experienced management and technical team
- Commissioned in 2011, the rutile facility was built as a greenfield venture with significant scope for expansion

This acquisition demonstrates Tronox's continued commitment to the titanium dioxide industry and will further enhance our ability to increase our product offering to our global customer base in order to supply the best products and services available in the industry.

China Today

China already represents 30% of global TiO_2 demand and will account for over 45% of all future demand growth over the next decade and beyond. If we are to maintain our position as a leading global producer of TiO_2 , we must participate in a significant way in China.

Future Plans

- Expand the Fuzhou asset
- Continue to improve the plant's safety, process and product technologies
- Upgrade the plant's environmental systems

Providing Economic Value

- Tronox has approximately 690 employees at the China plant
- Yearly sales revenue has the potential to exceed 1 billion RMB

Caring for the Environment

Our commitment as a socially responsible company means that we operate our facilities in a manner that protects people and the environment and preserves our world for future generations. Tronox is committed to continuous improvement in safety, security, environmental performance, reliability and open communication.

- Advocates and implements green and clean production
- Participates in environmental protection
- Serves as a member of "Social Responsibility and Care"

www.tronox.com

Tronox Holdings plc is one of the world's leading producers of high-quality titanium products, including titanium dioxide pigment, specialty-grade titanium dioxide products and high-purity titanium chemicals; and zircon. We mine titanium-bearing mineral sands and operate upgrading facilities that produce high-grade titanium feedstock materials, pig iron and other minerals. With nearly 7,000 employees across six continents, our rich diversity, and unparalleled operational and technical expertise across the value chain, position Tronox as the preeminent titanium dioxide producer in the world.

For more information about how our products add brightness and durability to paints, plastics, paper and other everyday products, visit www.tronox.com.

Fuzhou Plant awards and honors:

- National Advance Enterprise in Implementing Excellent Performance Model
- National Top Hundred Chemical Enterprises on QC
- Excellent Enterprise of Jiangxi Province
- High-Tech Enterprise of Jiangxi Province
- Customer-satisfied Enterprise of Jiangxi Province
- China Performance Excellence Advanced Enterprise in the titanium dioxide industry
